ABOUT US

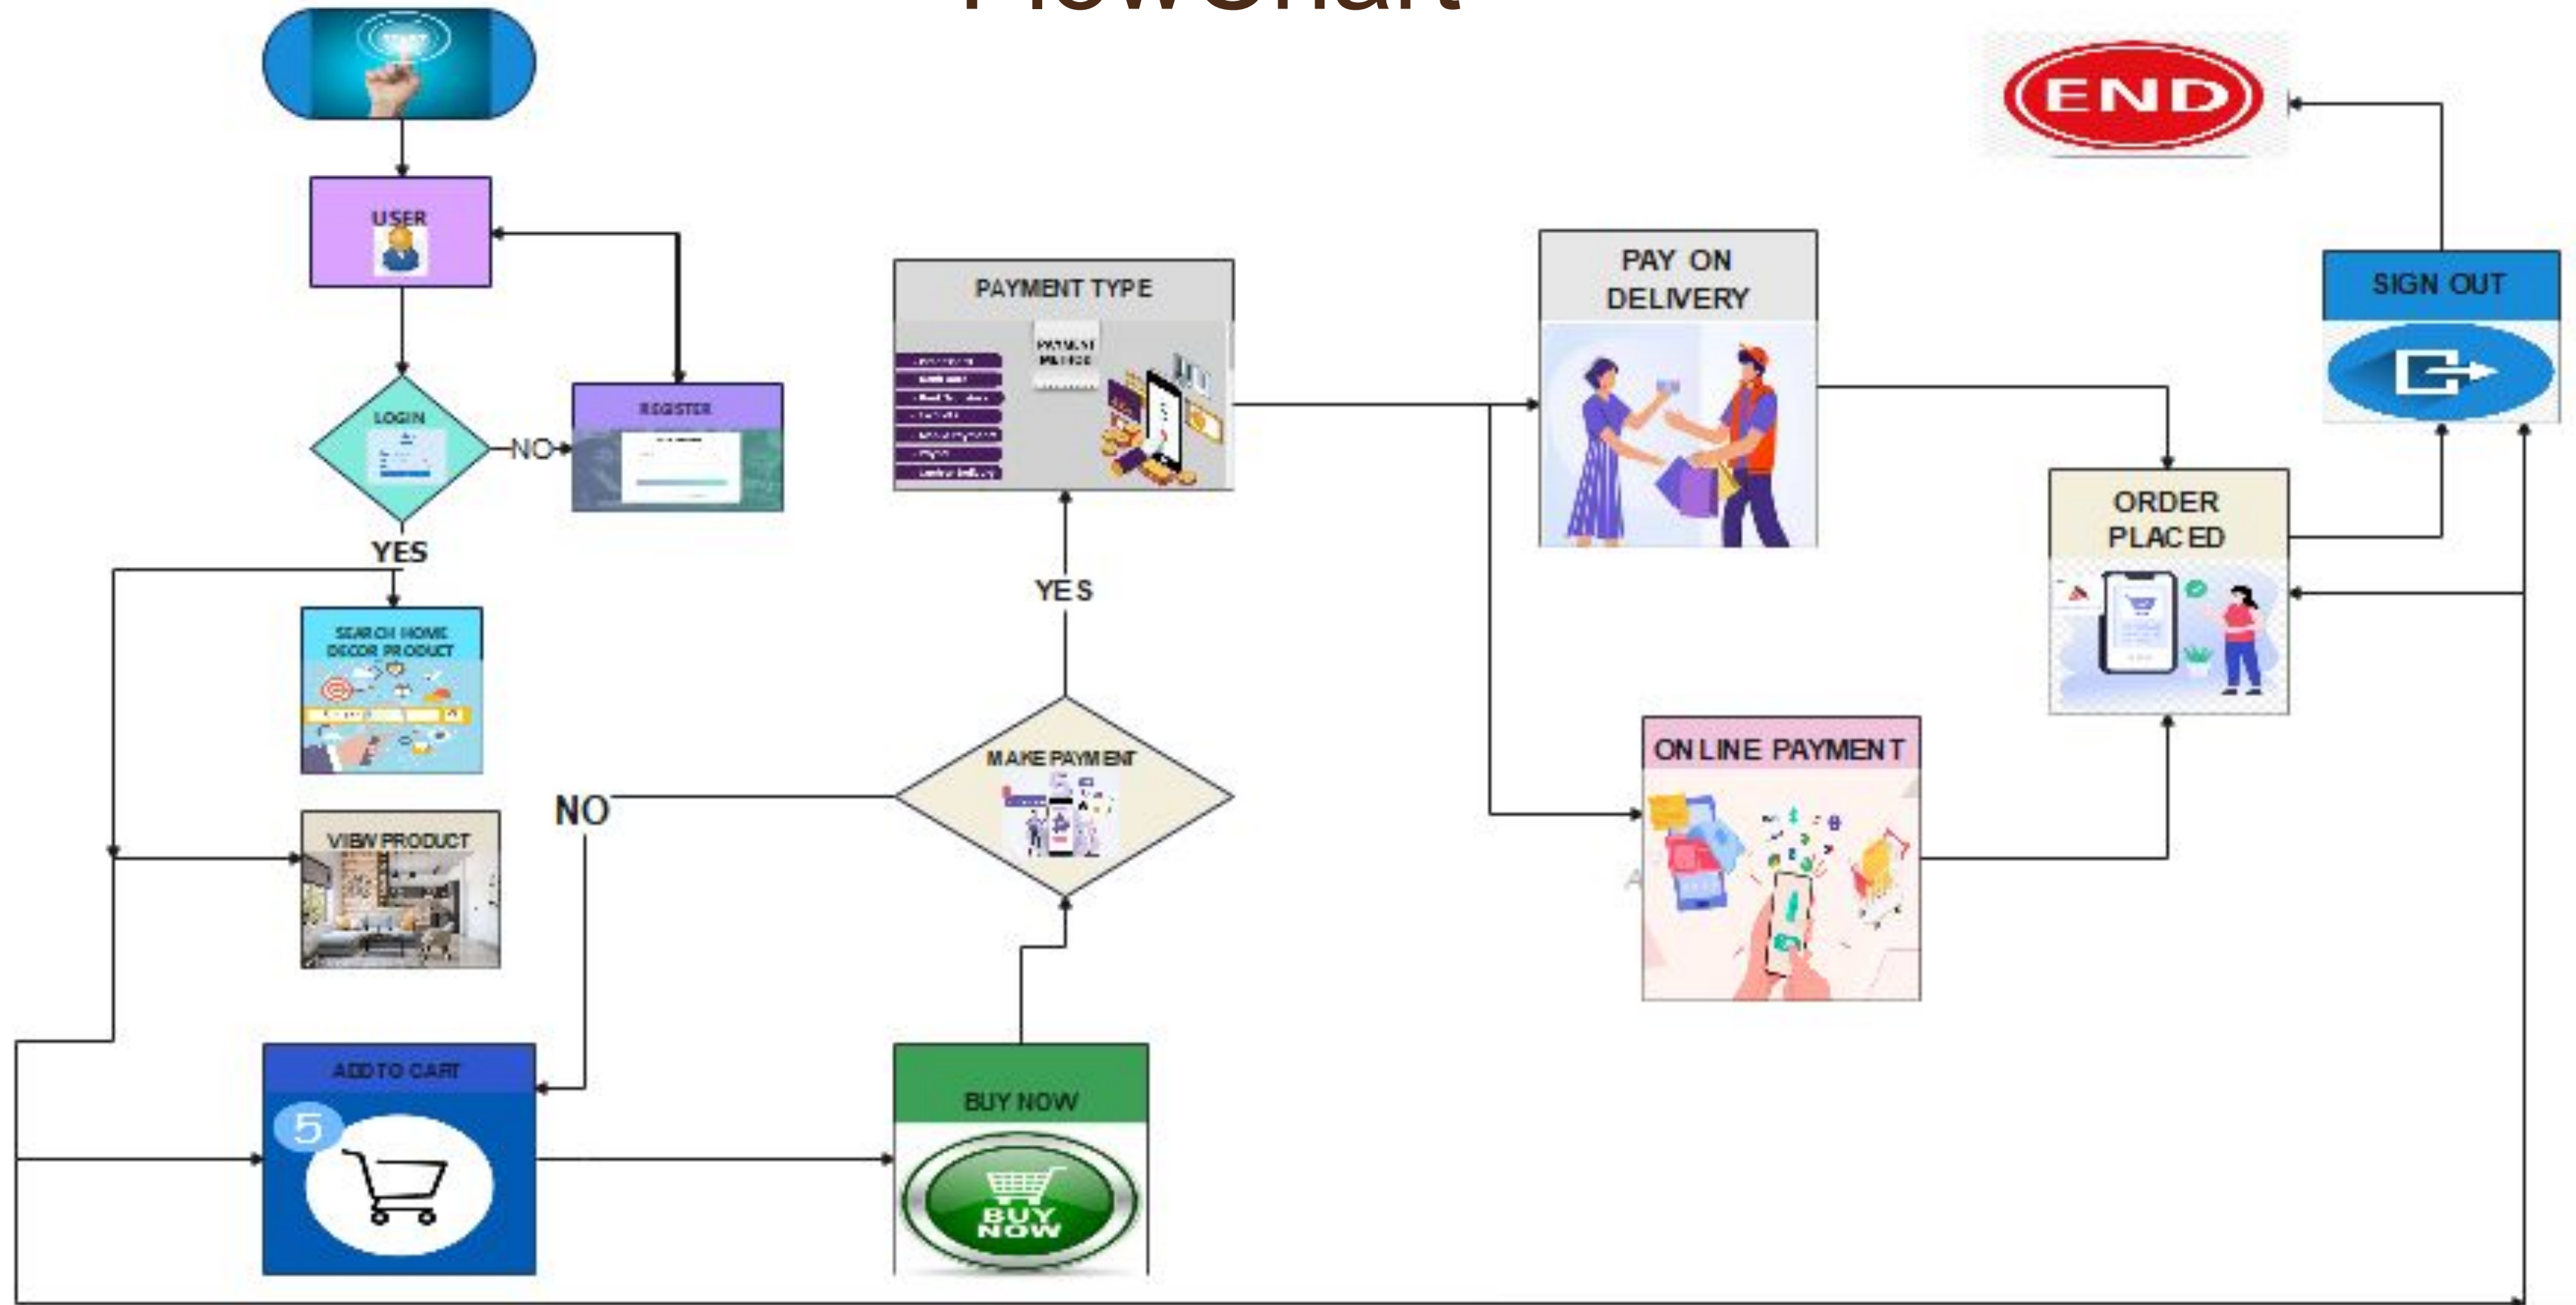

Welcome to Humble Home, where we transform houses into homes with a touch of elegance and style.

Our online platform is dedicated to providing you with the maximum products required for home decor, ensuring you find everything you need to create a space that feels like home. We strive to provide an extensive collection of products that cater to different tastes and preferences.

Our goal is to design a website with you in mind. We aim to create a user-friendly interface that

FlowChart

Technology stack

1. Frontend- HTML, CSS, JAVASCRIPT, React JS
2. Backend- Node JS with Express/Django/JAVASCRIPT
3. Web Scrapping/ API Integration
